Letter From The Curator:

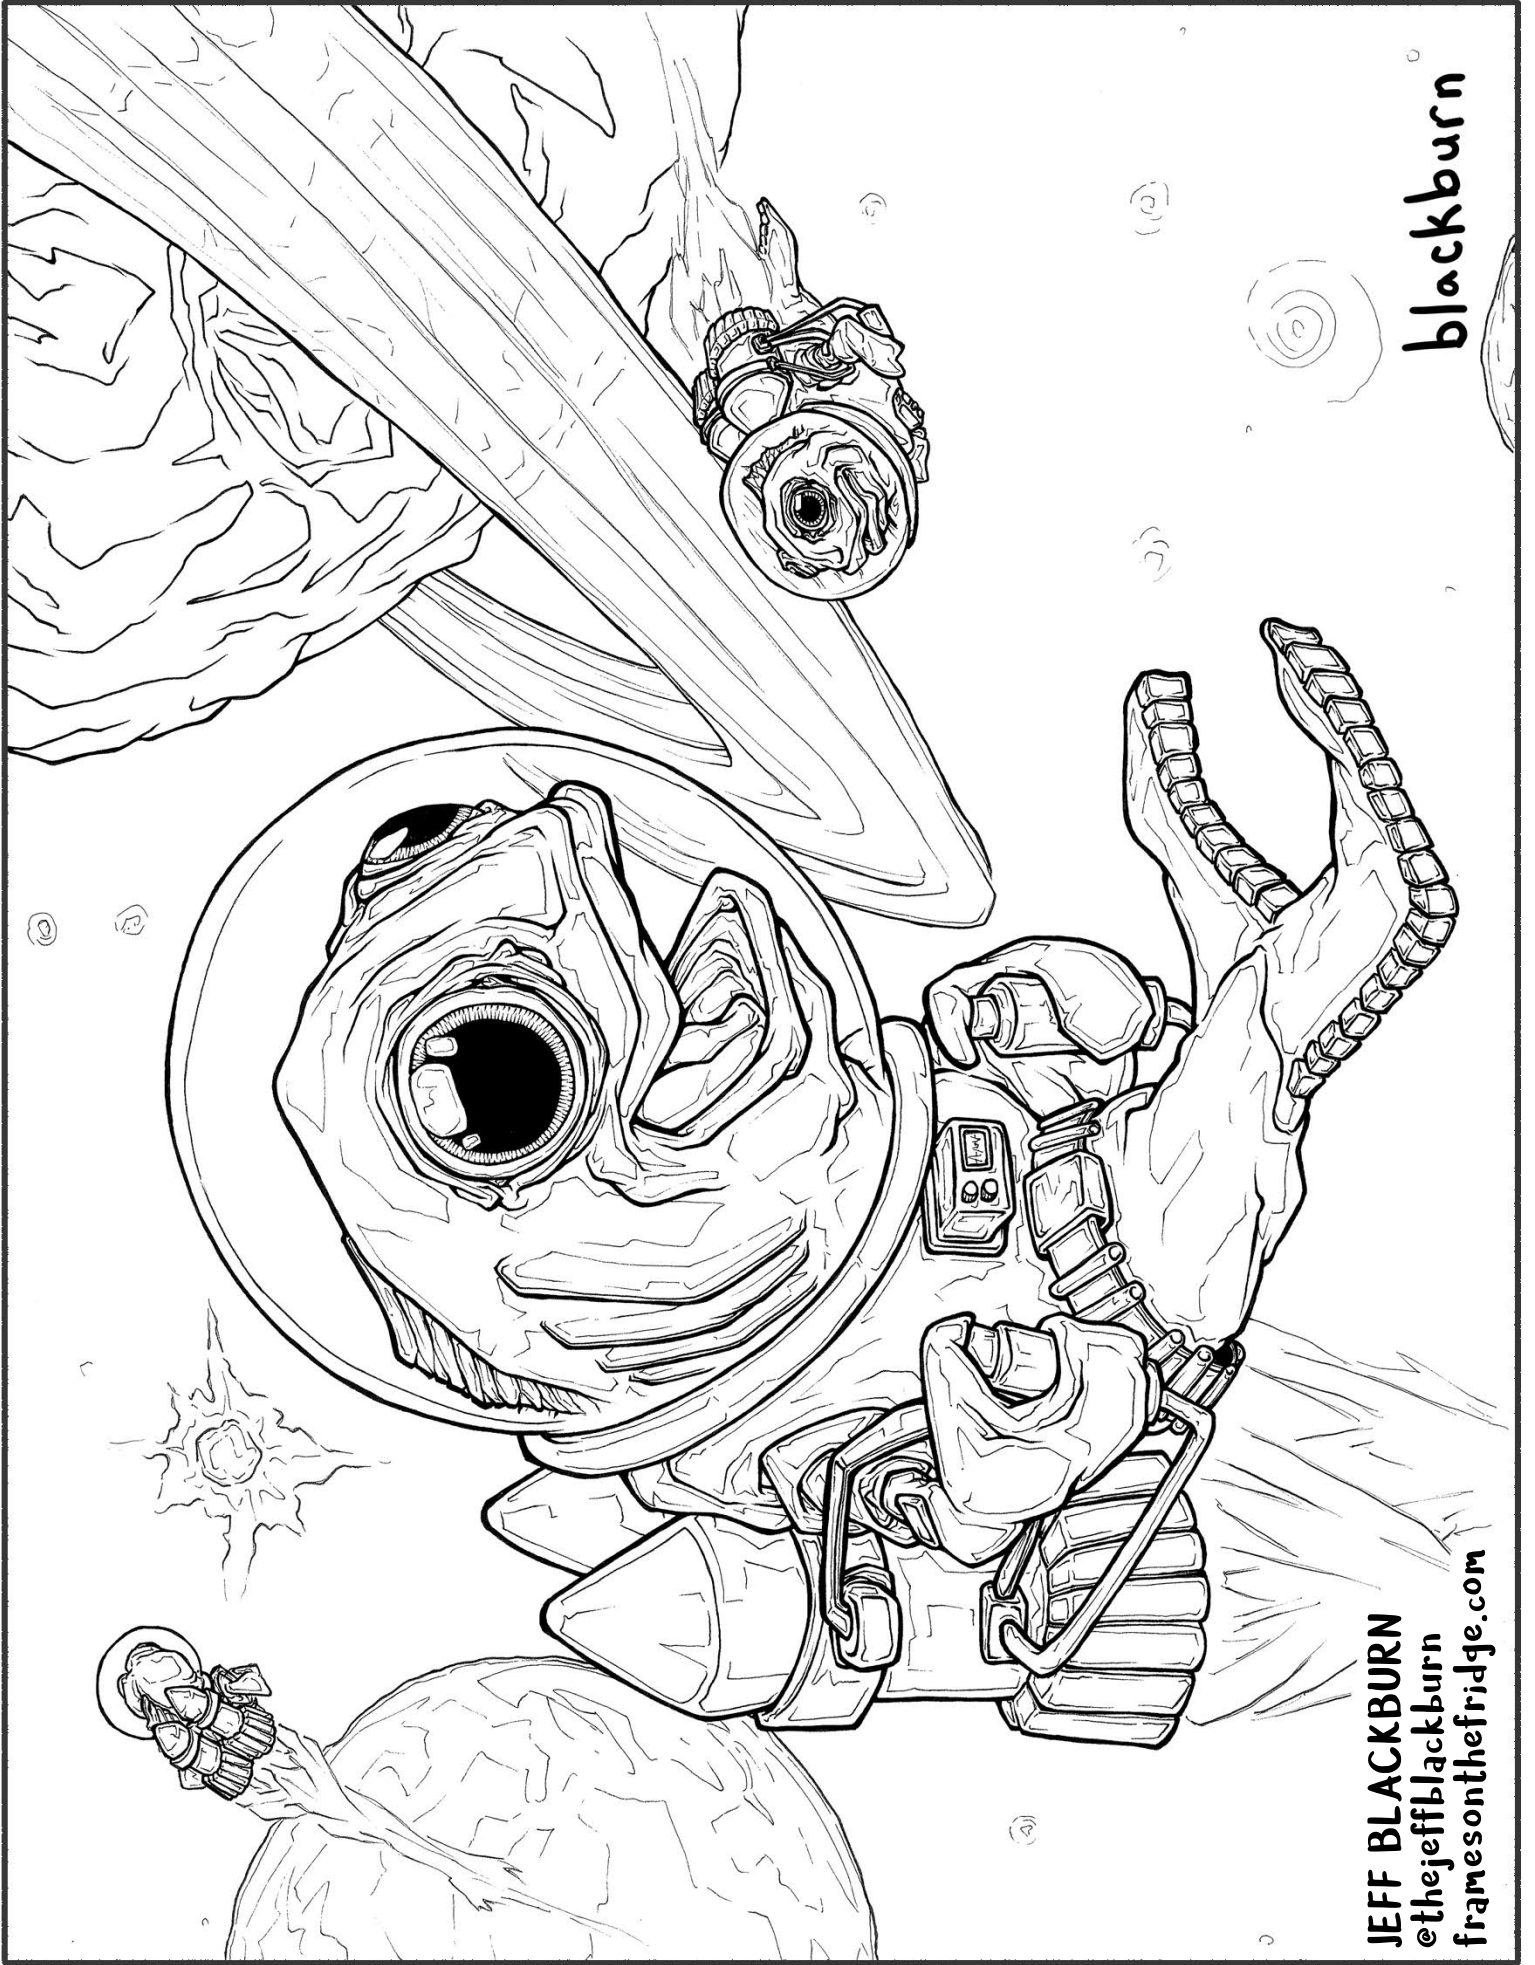

This colouring book comes as a response to the social distancing and quarantining times that we currently find ourselves in. Staying at home is one of the best choices we can make to help those around us, and this book will hopefully allow that time to pass a little easier.

Toronto is home to some of the best painters, illustrators, and designers in the world. I've always been in awe of artists and their ability to create entire stylistic universes that we, as viewers, can visit. Each artist featured in this book is someone who I have been fortunate enough to spend time with, and paint or exhibit alongside. They have clocked immeasurable amounts of time in studios and on walls, perfecting their particular skill set, and have taught me valuable lessons in composition, technical prowess, and sheer ingenuity. I am so very grateful that they were willing to contribute their work to this project on such short notice. Through their generosity, this project is offered without cost. If you enjoy this book, I encourage you to reach out share feedback to any or all of these talented individuals - I know they'd love to hear from you.

Wherever this book finds you, please continue supporting local artists, so that we may continue making beautiful things.
